## Mern stack Developer

+91-9721260169

Lucknow, India

ihimrao@gmail.com

<https://ihimrao.github.io/>

## SUMMARY

Experienced Software Engineer specializing in MERN stack development. Holds a Master's in Computer Applications. Proven collaborator with cross-functional teams, dedicated to delivering high-quality web solutions. Passionate about leveraging technology to enhance user experiences and satisfaction.

## EDUCATION

### Bachelor in Computer Application

#### Babu Banarasi Das University

2015 - 2018 e Lucknow, India

GPA  
6.7 / 10

### Master in Computer Application

#### Lovely Professional University

2018 - 2020 e Jalandhar, India

GPA  
7.1 / 10

## EXPERIENCE

### Full Stack Developer ( Intern )

#### Click Labs

01/2020 - 06/2020 Panchkula

ClickLabs is a SaaS technology service provider catering to entrepreneurs and SMBs. I work as a full-stack developer (Intern) here, responsible for building and maintaining web applications.

- Proactively pursued learning opportunities to enhance MERN stack development skills.
- Actively engaged in identifying and resolving bugs, participating in debugging sessions with the team.
- Assisted in the development of RESTful APIs to facilitate seamless communication between the front-end and back-end.
- Contributed to the server-side development using Node.js and Express.js, handling routing and middleware functionalities.

### Jr. Software Engineer (Mern stack )

#### Destm Technologies

08/2021 - Present Mohali

Destm is a leading Custom Mobile Apps, Web and Software Development Company with a number of successful projects under its belt.

- Successfully delivered multiple projects, handling both front-end and back-end development tasks.
- Designed and implemented scalable and maintainable architecture for web applications.
- Contributed to knowledge transfer sessions, ensuring a smooth transition for future team members.
- Effectively communicated with clients to gather requirements, provide project updates, and address feedback.

## PROJECTS

### Players Lounge

01/2021 - 05/2021 Lucknow, India

<https://playerslounge.com/sports>

I contributed to the development of Players Lounge, an esports platform facilitating global 1v1 tournaments in FIFA, Fortnite, and COD. Utilized ReactJS, Bootstrap, and Material-UI for the front end, and Express with MongoDB for the backend.

- Developed robust RESTful APIs with Node.js and Express.js, SocketIO facilitating seamless communication between the front-end and back-end.
- Successfully integrated PayPal as the primary payment gateway, providing users with a secure and widely recognized platform for online transactions.
- Developed a comprehensive admin panel for efficient management and monitoring with Express api's.
- Integrated external APIs seamlessly into the front-end to enhance the functionality of the application, such as incorporating data from third-party services like twitch.

## PROJECTS

---

### International Go Kart

📅 06/2021 - 07/2021 📍 Lucknow, India  
🔗 <https://igkart.vercel.app/>
